

CMDF CLINICAL ATTACHMENT 2021

PREREQUISITES

- **Pure & humble** heart to learn HOW to be a good doctor to heal the sick & the poor.
- Dare to be **Different** to take Challenges in clinical training.
- Leave your **Comfort Zone** to step out to see the Wonderful & Eye-Opening Experience.

LEARNING OBJECTIVES

- To let the students to see how missionary doctors from all over the world are willing to come to those rural areas to offer their service, especially their stories and motivation behind. We believe that the Life of the Missionary Doctors as Message and this is a very good role model to **inspire the medical students the Mission of being a Christian Doctor.**
- To strengthen and equip the medical students thru the training, and also let the medical student to know **how the Christian doctors trust in Lord to serve the underprivileged population in the poor and insufficient resources of environment.**
